British Values Link

Individual Liberty: the right to believe, act and express oneself freely.

We will be learning about what Hindus believe. You may agree with some of what you learn but you may not agree with other parts. In Britain, we think everyone has the right to believe, act and express oneself freely. This is why it is so important that we learn about world religions because it enables us to better understand differences and also to celebrate aspects of life that other people value.

Tolerance of those of different faiths and beliefs.

Alongside people having the right to believe, act and express oneself freely, in Britain, we also think that we should respect and celebrate differences. Accepting differences is not enough, we should strive to understand differences so that we can understand how individual's personal identities are formed. Through learning about differences, we become better able to celebrate the diversity of Britain.
